

# JAMES MADISON MIDDLE SCHOOL

## Bridging the Digital Gap

Verizon Wireless has identified a gap in wireless coverage and service in your community. Verizon Wireless and Milestone Communications are preparing to file an application for a wireless telecommunications facility at the James Madison Middle School located at 7300 Woodyard Road, Upper Marlboro, MD. The proposal is for a 130' monopole on the northern side of the School property, east of the existing parking lot. The location was selected in consultation with representatives from Prince George's County Public Schools. The facility requires ground equipment to operate. The equipment will be located in a fenced and gated 50' x 50' compound at the base of the monopole and surrounded by an 8' solid wood fence. The line of trees on the northern side of the property near the proposed location will provide some natural screening. The proposed site will not interfere with the School's use of the property and is a permitted use of the property, subject to the setback and landscaping requirements of the Prince George's County Zoning Code. Please visit the website [www.madisonmswireless.com](http://www.madisonmswireless.com) for more information regarding this proposal.

A community meeting to discuss this proposed facility will be held on Thursday, September 11, 2014 at the Melwood Church of the Nazarene, 6906 Woodyard Road, Upper Marlboro, MD from 7 PM to 8 PM. Please visit the website [www.madisonmswireless.com](http://www.madisonmswireless.com) for schedule updates and notifications or contact Maureen Smith at 703-268-5093 for additional information.
