IFB Questions & Responses

	Questions	Responses
1	The plans do not have a designed sprinkler system. The last time we completed a sprinkler design for PGcps it took over one year to get through the permit office. This project requires a design and installation in less time with no know guaranteed start date. How does the county expect the contractor to meet the required completion date with no specific time designated for review by DPIE. This review time is outside of our control.	Review times vary depending on the number and complexity of comments from DPIE.
2.	Electrical drawing E1 reference PGcps master specs. Can you please provide these or a link to download?	The specifications provided have been customized for this project and should govern this work. The Master Specifications are available via the link below. https://ariumae.box.com/s/mdpnm3h5ruc10gsx4meg0rfnpw0xmiky
